Noise Reduction Helps Improve CMS HCAHPS Scores

- Formed ledge panel design eliminates seams and joints for noise reduction and ease of cleaning
- Friction cam ledge mounts eliminate vibration noise when full or empty
- Isolation pads reduce travel vibration
- Formed side panels minimize 'drumming' noise
- Wide, cushion-tread casters are specifically engineered for noise reduction and maneuverability
- Pivot travel pressure latch eliminates transport vibration

Standard Features

- Magnetic door closure and hold-open
- Heavy-duty lift-off door hinges
- Top rails (3 sides) hold additional items securely
- Convenient ergonomic full-height door grasp for easy opening
- Anti-static floor strap
- Base corner bumpers

Removable ledge panels with friction cam mounts eliminate vibration.

Pivot door travel latch holds door firmly against door frame pads.

Formed side wall reduces 'drumming' vibration. Ergonomic push handle.
