Quickly and thoroughly clean utensils between uses.

Minimize the risk of cross-contamination and provide employees with continuous access to clean and sanitary utensils with Sani Station in three easy steps.

No plumbing or electricity required, saving water and money. The small footprint, available in counter stand and hanging vertical mount models, keeps it in arm's reach at prep stations. Sani Station comes with pre-portioned cleaner and sanitizer solution packs that are NSF D2 approved to be food-safe and ensure proper chemical dilution. The only approved chemical to effectively control bacteria like e. coli, salmonella, listeria, and staph aureus, this cleaner and sanitizer solution pack is still safe enough to not require a water rinse after sanitizing.

**Steps**

**Clean**
Excess food is scraped off the utensil using the red squeegee.

**Sanitize**
Center brushes allow for visible residue removal, while simultaneously cleaning and sanitizing the utensil for 60 seconds.

**Store**
Excess solution is wiped off on the green squeegee and the utensil is placed in the drying basket to air dry, no rising required.

www.sanjamar.com
### Accommodates utensils up to 12" long and 2.5" wide

- Small footprint
- No plumbing or electricity required
- Ability to mount counter stand units
- Provides sanitary storage
- Pre-portioned cleaner & sanitizer

NEW DEMANDS REQUIRE NEW TOOLS.

If your sanitizer:
- Requires a soap/detergent clean prior to use
- Needs a water rinse prior to sanitizing
- Has a soil load restriction
- Does not prevent biofilm
- Has a long contact time requirement
- Does not address allergens

It is time for a change.

Protect the health of your business by using Sani Station products as part of your food safety strategy.

- Proprietary blended cleaner and solution
  2-in-1 product — NO OTHER STEPS REQUIRED
- FDA, EPA, and NSF D2 approved
- Packets are pre-portioned for easy chemical dilution, no measuring required

**ITEM** | **DESCRIPTION**
--- | ---
SANIS05-100 | 0.5 ounce packet - 100 count
200105HSKIT | Includes: 32 oz spray bottle, 1 case SANIS05-100, 1 tube of chlorine test strips

Ideal for: All hard surfaces, equipment, utensils and more
Sani Station Sanitizer & Cleaner solution can be used to clean and sanitize equipment, utensils, and other food/non-food contact surfaces. Mix fresh solution as needed by following the dilution ratio.

**DILUTION RATIO:**
One (1) 0.5 oz Sani Pak per 32 oz/1 qt HOT water. Correctly diluted product should test at 199ppm available chlorine.

*For use in either spray bottle or Kleen-Pail application.

**TO CLEAN:**
Apply as necessary to completely coat the surface with Sani Station Sanitizer & Cleaner solution. Use clean brush/towel/sponge to scrub surface until visibly clean. Wipe clean.

**TO SANITIZE:**
Spray as necessary to completely coat the surface with Sani Station Sanitizer & Cleaner solution. Allow to soak for at least 60 seconds. Use clean towel to remove excess solution. No rinse needed.

**NOTES:**
Spray bottle must be labeled with the Sani Station hard surface label provided. Spray bottle should only be used with Sani Station Sanitizer & Cleaner solution. Do not use or mix spray bottle with any other chemicals. Store at room temperature with other chemical products.
